WORK EXPERIENCE

Axolot Games, *Stockholm*

Game Programmer

September 2025 - Present

I worked on Scrap Mechanic. Developed and shipped engine systems and gameplay features.

Krafton, *Stockholm*

Electrical Designer

August 2017 - October 2022

Constructed drawings and technical solutions for offices, apartment buildings, schools and labs in electrical installations, tele-data, lighting.

3D drawings for the construction of prefabricated slab bearing layers.

Analyzed requirements and specifications for projects and developed a technical/financial plan based on these requirements.

Project Manager

August 2017 - October 2022

Planned and structured implementation of selected products based on the project's specific framework and calculation.

Created and managed schedules, communicated with customers and other stakeholders, managed budgets and resources and ensured that the project met all technical requirements and regulations.

Electrician Leading Installer

March 2015 - 2017 August

Planned tasks, allocated resources and ensured that work was completed on time and within budget. Providing coaching and feedback to juniors.

Electrician

March 2013 - 2015 August

Installed, repaired and maintained electrical systems and equipment.
